INTRODUCTION

Welcome to the first edition of the Alberta Education Publications Catalogue. The primary objective of the catalogue is to inform educators of departmental policies, programs, and initiatives of Alberta Education by listing the publications (documents) produced by the department and how they can be acquired. This catalogue lists over 400 titles available from the department either free or for sale and is the first catalogue to list all of the available publications.

This catalogue is a continuation of the Alberta Education Publications Annual List and replaces all lists previously produced by the department.

HOW TO USE THE CATALOGUE

The catalogue is easy to use. The publications are grouped into four sections by type of document:

1. **Legal Document** - is one which is approved by the Minister or Deputy Minister and is designed primarily to communicate Alberta Education requirements as set forth in provincial legislation, regulations, policies or programs, e.g. Programs of Studies, Junior/Senior High Handbook, Philosophy Goals and Program Dimensions of Early Childhood Services, etc.

2. **Service and Support**

   Service Document - is one designed to communicate Alberta Education expectations for policy or program implementation by interpreting or expanding upon the legal requirements, e.g. curriculum guides.

   Support Document - is one designed primarily to communicate suggestions and offer alternatives as to how or why provincial policies or programs could or should be implemented, e.g. monographs, manuals, teaching units, etc.

3. **Information Document** - is one designed to communicate the services available through Alberta Education and/or how to access these services; the operation of Alberta Education or its branches; new departmental or branch policies, initiatives or directions, e.g. news releases, newsletters, task force reports, annual reports, bulletins, research reports, policy or position papers, etc.

4. **Miscellaneous Document** - includes forms, registers, etc.

In the Legal and Information Sections, publications are arranged by title.
In the Service and Support, the publications are arranged by subject and then by title.

There are two indexes, one by Title and the other by Distributor. Publications are arranged alphabetically by title and cross-referenced to the entry in the catalogue.

The entries include:
